

# Characteristics and Employment Outcomes of Post-secondary **STEM** Graduates in Maryland

Xiaying Zheng, Michael E. Woolley, Angela Henneberger  
& Laura Stapleton

Maryland Longitudinal Data System Center

MSDE Data Summit, June 17<sup>th</sup> 2016

Draft as of 04/28/2016

# Outline

---

- ▶ **STEM** Education and Workforce in the U.S.
- ▶ Characteristics of Postsecondary **STEM** Graduates in Maryland
- ▶ Employment Outcomes of MD **STEM** graduates

# What is **STEM**?

---

- ▶ **S**cience
- ▶ **T**echnology
- ▶ **E**ngineering
- ▶ and
- ▶ **M**ath
- ▶ Operationalized as...
  - ▶ Educational programs
  - ▶ Workforce careers, employers, positions, and employees

# National **STEM** workforce

---

- ▶ Estimated at be 4 to 7% of the U.S. workforce
- ▶ About 17% of college graduates annually
- ▶ Estimated 500,000 STEM graduates a year competing for 180,000 openings each year
- ▶ Currently more students are taking science and math courses and doing better than previous generations  
(Cannady, Greenwald, & Harris, 2014; Hoffman, Starobin, Laanan, & Rivera, 2010; Salzman, 2014; Thompson, & Bolin, 2011)

# STEM workforce Shortage?

---

- ▶ We have a **STEM** graduate shortage crisis!
  - ▶ Steve Jobs to President in 2011 ‘We would have located 700,000 more manufacturing jobs in the US if only... (43k vs 5k)
  - ▶ Obama – ‘we need to graduate 10,000 more engineers each year’
- ▶ **Controversial - Counterevidence**
  - ▶ In the same timeframe this shortage was asserted...
    - ▶ Hewlett Packard laid off 120,000 workers
    - ▶ GE moved X-ray operations from WI to Beijing
    - ▶ Lots of unemployed tech skilled workers across the U.S.
  - ▶ Researchers consistently find surpluses – current estimates are that US graduates 25,000 more engineers each year than there are positions
- ▶ **Conclusion: complex problem!**  
(Salzman, 2014; Hira, 2010; Hoffman, Starobin, Laanan, & Rivera, 2010)

# STEM Disparities in Higher Education

---

- ▶ Women and members of Non-dominant groups underrepresented in STEM education and workforce
- ▶ Women outnumber men in postsecondary education (~3:2). However, they are just **15%** of engineering majors, **14.5%** in computer and information sciences, **9.6%** in construction and architecture, and **8.5%** of manufacturing majors.
- ▶ Of entering 4-year students in STEM, **65%** of white students finish their degree, while just **16%** of Black, Hispanic, or Native Americans earn their degree in STEM
- ▶ These patterns have profound implications for the health and well-being of such groups, the competitiveness of the U.S.,

(Meseus, Palmer, Davis, & Maramba 2011; Milgram, 2011; Palmer, Maramba, & Dancey, 2016)

# Maryland **STEM** Workforce

---

- ▶ MD Workforce = **2.6 million** in 2015
- ▶ MD **STEM** workforce
  - ▶ **358,288** in 2015
  - ▶ **13%** - which is higher than published research about the national proportion (4-7%)
  - ▶ Average hourly earning = **\$35.31** in 2013

(Source: ASTRA's 2015 STEM Innovation Vital Signs Series: Maryland's 2015 STEM Report Card)

# MD High School Students' Interest in STEM Jobs by Gender

(Source: ASTRA's 2015 STEM Innovation Vital Signs Series: Maryland's 2015 STEM Report Card)

# MD High School Students' Interest in STEM Jobs by Race

(Source: ASTRA's 2015 STEM Innovation Vital Signs Series: Maryland's 2015 STEM Report Card)

# Key Findings

---

- ▶ **STEM** degrees increase
- ▶ Males dominate STEM fields
- ▶ Wage disparities by degree level and program field
- ▶ The rate of degree earners receiving wages for 4Q was markedly different for in-state and out-of-state graduates
- ▶ Retention rates for earning 4Q wages also differed
- ▶ In general we tend to retain **STEM** degree earners

# Limitations

---

- ▶ Just because some graduates did not have wage records in MLDS database does not mean they were not working in Maryland
  - ▶ Federal workers
  - ▶ Self-employed
- ▶ The industries they received wages from are not indicative of the actual work they did
- ▶ This analysis does not tell the whole **STEM** workforce picture
  - ▶ Students who left MD for post-secondary education and came back to MD to work
  - ▶ Students who went straight from high school to **STEM** workforce

# Q&A

---

- ▶ Thank you!
- ▶ Any questions?
